

Health Care Industry-Recognized Apprenticeship Programs

IRAPs seek to bridge the **gap** between a valuable credential and practice in the field, ensuring sustainable relevance.

IRAPs are high-quality, **competency-based**, on-the-job learning opportunities that prepare the apprentice to obtain at least one **industry-recognized credential**.

Preceptors go through training to ensure apprentices are consistently evaluated using **observation** and **demonstration**.

Where's your workforce gap?

Health Care Culinary Services

Health Care Supply Chain

Sterile Processing Technician

Medical Billing & Coding

MRI Tech

Health Care Facility Management

Peer Support Specialist

Industry-Recognized
 Retention ROI Productivity
Competency
 Community Benefit Engagement
Training
 Recruitment Patient Outcomes

Apprentices are awarded credit for prior learning and **experience** in order to focus on gaining the skills necessary to be successful in the occupation.

IRAPs are **recognized** and evaluated by a qualified, 3rd-party Standards Recognition Entity. Ours is the **ANSI National Accreditation Board (ANAB)**.
